

OCI Company Ltd. is a global leading chemical and green energy company. Its overseas sales account for more than 70 percent of the total sales revenue with a product portfolio spanning the fields of basic chemicals, petro chemicals, coal chemicals, fine chemicals and renewable energy. Our major product lines include carbon black, pitch, toluene di-isocyanate, hydrogen peroxide, sodium percarbonate, soda ash, fumed silica, and polycrystalline silicon which is the basic material used to manufacture silicon wafers and photovoltaic cells. Further information is available at our web site at <http://www.oci.co.kr/eng/>.
